#### **Protection For Prairie Provinces**

Some writers contend that the people of the Canadian West are clamoring for Free Trade.

re so it would be extraordinary, and would say little for the foresinght and ambition and enterprize of the people of our Prairie

As a matter of fact those new Provinces are more in need of a pro-tection facts policy than are the older Provinces of Canala. Surely the people of the Prainie Provinces do not book forward to their great country of imperial dimanonia, always remaining a merely pastoral and agricultural country. Surely they look forward to their great country being filled with varied industries, austhings a vast industrial population affording a highly profitable boom markes for the product of their farms and stock-

That is the proper ambition of every intelligent and enterprizing

That is the proper ambition of every intelligent and enterprising community, and we came assume that the people of our great Paris-Provinces constitute an exception to that reasonable rule. Winnipega hould become a great manufacturing enter that may some time rival Chicago, and other growing towns of our great Northwest should have a similar ambition and follow rule.

But to baild up great manufacturing industries in the Causdian Northwoof, the maintenance of the Causdian, National Policy is nothing see that imprenite.

With the proposed Reciprocity scheme, and with the "Confinental o Trade" which Sir Wilfrid Laurier has long advocated, and which FRO ITAGE when Sit Willing Laurer has long parceased, and when the "thin edge of the wedge" provided by the present "pact" is confi-dently expected by its promoters to bring about, the Canadian North-west would be deemed to the condition of a "mere'y pasteral and agri-

west would be deemed to the condition of a "meerly pastoral and agri-cultural centry" in perpetulty. Chicago supplies agricultural machinery and supplies of all kinds to a large part of the United States West. Why should not Winnipeg do the same for the Canadian West? Touching the matter of the present sustoness dayly on agricultural implements and machinery, about which much has been recently said, If may be that howe states are unstanceabily and unsuccessarily belowing to the investe of both Canadian installacturers and Canadian

If this is so, these duties should be lowered; but in no case should they be so lowered as to prevent the establishment and growth of such manufacturing enterprize in Winnipe; and elsewhere in Canada.

The more industries of every kind there are in a country, the better it must be for the farmers above "all always find the most profitable are it must be for the farmers above "all always find the most profitable and the control of the con

market among the industrial population near their own farms.

Apart from this general principle, there is also, in this ago of stock companies, no reason why farmers should not have as direct an interest in such manufacturing enterprize as in the growing of grain or the production of beef.

or the production of boet view the highest interests of the Canadian Northwest are bound up in the reasonable maintenance of the Canadian National Policy of tariff protection, and the next most desirable thing to seek is a Preferential market in the Motherland of Britain.

And of both the Canadian National Policy, and of the British Em-pire Policy of Reciprocity Preferential Trade, the Taft-Fielding Pact is the designed and deadly enemy.

#### This Canada of Ours

It is not the habit of Britons, whether resident in the motiit is not the habit of Britons, whether resident in 'the mother-country or in the Overseas Dominions, to boast of their country, but, as to-day the Dominion of Canada enters upon the forty-fifth year of its existence, it is in order to 'tikes totch.' to a small extent, of the results which have followed the union of the few scattered provinces which was consummated an the first of July, 1807. These, broadly stated, are as follows:

Bons in 1807 to about eight millions in 1911.

Canada has now nine provinces instead of four, as at the time of
Confederation, those which have been added being Menitoba in 1870,
British Columbia in 1871, Prince Edward Island in 1873, and the two
new provinces of Alberta and Saskatchewan in 1905.

Canada's total trade with the Empire and with foreign countries increased from, in round numbers \$200,000,000 in 1867, to \$693, 000 000 in 1010

Canada has a greater railway mileago per head of the population and a more perfect system of inland navigation than has any other o world.

Canada has a foreign trade several times per head of the population

annual nas a lovege trade several times per head of the popu-lation greater than less the Juridel States.

Canada has the largest wheat-groduces the best choses on this conti-tion of the produce the best choses on this conti-nent, and is the largest exporter of that article to the mother country.

Canada's bertiage in minerals and timber is among the most ex-

FRENCH MORTALITY

The average length of he rrance has increased by 30 per in the last 25 years. Professor La longue, President of the Academ longue, President of the Academy of Medicine, gives an explanation of thi

steady diminution of the birth r Up to the age of two years inf mortality is very high. But of 1 infants from 200 to 300 die in mortality is very infants from 900 is 300 on infants from 900 infants from 900

### Different and Better Clothes

Whether or not you have decided what sort of a suit you want, sir, come in for a look.

We're always glad to show you the good things we have here and we won't say a word about buying.

You can try on to your hearts content.

Our clothes themselves are the best argument and our experience is that most men who look and go come back to buy.

Of course, there's a reason for it. But you'll see that when you're looking at the clothes.

#### \$10, \$12, \$15 to: \$25

We also show excellent values in suits at \$5, \$6, \$7 and \$8.

#### Men's Hosiery

Look well to your Hosiery now, gentlemen! It's Low Shoe season again and a man's hosiery will constantly be in evidence.

#### The Feeling In The West

The Liberal riding of Wetaskiwin, Alberts, probably furnishes the stest surprise of the Conservative lander's four, says the Guelph ald. The electors not only grew enthusiastic over his presence. Bernald. The election not only grow enthulation over his presence, but at least 50 per cent, were cheering his meaning against reciprocity. But all uses 50 per cent, were cheering his meaning against reciprocity and the state of the state

as some people thought, deals with this joint of view in the following classified and the properties of a recent date:

Dear Sir.—In it not pleasing and gratifying to notice the evident formed the properties of and and type the constraints and the constraints of the constraints and the constraints are constraints are constraints and the constraints are constraints. The constraints are constraints are constraints and the constraints are constraints and the constraints are constraints. The constraints are constraints are constraints and the constraints are constraints and the constraints are constraints. The constra

I remain, respectfully yours,

W. A. SHEPARD,
Pres. Borden Bordt of Tradio,
The Hersld quite agrees with W. Separal, ed., fast,
fate of the Government when it goes to the people, as it must do before
respectively. The present the present of the past winten years when the electrate was more increased against a Government's blushed: than in this one concerning redpropely.

### Sinclair's Alteration Sale Bigger and Better Service

Ours is a business that has never stood still, it's history has been one Ours is a business that has never strong still, it's history has been one of continual growth. When we moved into our continual growth by the growth of our settler with the selves wondered if ever we would fill our big new store. To-day our most ptomistic ideals have been realized and we are forced to enlarge the floor packed of our store, in order that we may give a Bigger and Better Service to now see increasing reade. Service to our ever increasing trade.

Service to our ever increasing trace.

The contract is now let for the enlarging of the rear of our store and rooms at present filled with reserve slock must be cleared before this work of extension can be proceeded with means a GIGANTIC SALE OF NEW AND SEASONABLE GOODS, WITHOUT OF OR OWNER TITY, QUALITY, AND PRICE REDUCTION HAS NEVERS BEFORE BEEN EQUALLED IN THE HISTORY OF SINCLAIRS STORE.

### Sale Begins Thursday, July 6th

Here are Some Lines That Must be Cleared Out:

Ladies' Costumes Ludles' Dress Skirts Ladies' Shirt Walsts Ladies' Mull Dresses Children's Dresses Ladies' Silk Dresses Ladies' Whitewear

Silks and Dress Goods .. . . . Table Linens Prints and Ginghams Linens and Wash Goods Dress Muslins Ribbons and Laces Parasols and Umbrellas Gloves and Hosiery

#### Toft's Twistings

The twistings and turnings to which President Tap has been drive on in his unremitting efforts to force through Congress his reciprocity hargain have been driften binds receiptable—it was said pipulushing and abaraciess the characterization route not be ottom—saintee. It

T det does skinntiene the cherocherisation rould not be too strong-cisions. To LEF (1920) all the charge control of the charge contr

tions on the expers on plus more.

Further exemplification of President Tell's sinusces methods were given by him in a speech which he made at Indianapolis on the 4th inst. Mr. Tali, in replying the contention that subgreatly could be carried out wholly at the expense of the farmer. The interest who interest the subgreatly could be carried out wholly at the expense of the farmer. or carried out wholly at the expense of the farmer, and in the in of the wage-earner of the large cities, said that in his judgment reciprocity agreement will not greatly reduce the cost of living, all.

"It will," the President continued, "seekly price by coloring the resident of supplies for those things that are raised in both, countries of a supplies for those things that are raised in the continued in the supplies of the supplies of

States, and Secondly-Under reciposity the farmine of the United States would still make in Canada than the farmine of the United State.

This latter assertion, which was made in his appeals, a short time got at Chenge, whose pressure of wearest Morsels, lastly contrades his first and third assertions, and demonstrates in a winery what manifest produced the complaint, "continued Mr. Tati, in his speech at Indian "The complaint," continued Mr. Tati, in this speech at Indian contrades the complaint," continued Mr. Tati, in his speech at Indian contrades the complaint, "continued Mr. Tati, in this speech at Indian contrades the complaint," continued Mr. Tati, in this speech at Indian contrades the complaint, "continued Mr. Tati, in this speech at Indian contrades the complaint," continued Mr. Tati, in this speech at Indian contrades the complaint, "continued Mr. Tati, in the speech at Indian contrades the contrades t

apolis, "that the farmers, would suffer by the agreement, when aun lyzed would be found to be an argument that the admission of Canadian wheat free of duty would lower the product wheat raised in the United States ten cents a bushel,

United States ten cents a bushel.

The source to this argument, he and, "is that this cannot be, for their sources to this argument, he and, "is that this cannot be, for their sources of the price of wheat in the United States and Canada is utilizating fixed the price of wheat in the world," and that the world; prices are adjusted to the angle of the procession and the supply of the emporior of them and the property of the supply their sources of the supply the supplies which they are the supplies which the require their supplies would be to reduce the cost of manifestions form in just the order other than the supplies would be to reduce the cost of manifestions form in just the order other their supplies would be to reduce the cost of manifestions form in just the order other their their thin their supplies would be of reduce the cost of manifestions form in just the order other their supplies would be professions out the supplies would be professions out the supplies would be professions out the supplies would be professions. Bays" district, and affording passert, gens the opportunity or resching that destination in time for dimer. "The slightly evening boat service from the wave Hool, Britannia, Polis, Ross, Portage, Benhard, and "Lake of Bays" of Humberthe will be ruir on the same schedule as for usen 1950, during the months of July and August, and which will be, a boom to week-sudered restring to reduced cost of production would enable the mills to regain in the foreign market the 18 to 20 million barrels of four sold in foreign trade an nually ten years ago, but which in recent years has fallen to ten million barrels."

That is a very nice prospect from Mr. Talt's point of view, but if,
That is a very nice prospect from Mr. Talt's point of view, but if,
the subod Mr. James J. Hill—the latter of whose has knowledge of
the subod of the subod in the support of the subod of the subod in the
farpers, millers, yophingmen. It is possible to companie a slockfreeders?

This question has been most effectively answered by Mr. H

"Minnespolis inferents apack in gloring terms pol American milways carrying our wheat to their mile, and these care of the process of the second policy discretion below with increased deposition of the second policy of

The Northwestern Miller, of Minneapolis, said the other day "The miller who is able to grind the Canadian crop will be the miller of the Intuity, and where he is there will be the great mills of the world."

Why not keep these mills in Western Canada to build up Western Canadian central, to furnish the Western liquidock industry with ed. to confeh, the soil of Western Canada, and to infuse new life inevery artery of our National trade and commerce?... Under present conditions the Canadian flour milling industry

Under present conditions the tabusan-wing to great proportions.
Why should we check it is in full career and hand it over to our teles Bisties competition?
Why should American millionaires instead of our farmers and farming get the beast of an industry late present productions in tain to experience sommous expension?

#### **Proportional Representation**

That eminent survival of a reputatica, Sir Richard Cartu tana, emment survival or a reputation, or Hiemand Cartwingut, has been speaking before a gathering of Toronto Liberals on the sub-ject of proportional representation, says the Montreal Gazette. He painted a sorrowful picture of the position of the Liberals of that city, panties a sorrouten picture of the position of the Liberaus of this cur, who are able only in exceptional circumstances to send to Parliament a representative of their views, though in the five constituencies they make up some 40 or 45 per cent, of the voting population. This situamake up some 40 or 55 per cent. of the voting population. This attraction is not peculiar to Tecution. It has been the subject of thought by many men in many countries. Sometimes, and perhaps generally, the consequences are scangerated, in the case of Frontia the loss of the Libertals is compensated by a corresponding less by Consecratives in other parts of the country. The country of the performance of Quebec is discovered in the country of the performancy electrons of little shows the return. The record of the performancy electrons of little shows the return therefore the performance opportunity of the performance of the performan ed for Liberal candidates and 129,631 for Conservatives or independents. Eliminating the return by acclamation a scheme of propor ents. Eliminating the return by sechamation a scheme of proportional generations updated to such a situation would have sent to Parlia-ment 3t Liberah; and 39 Concernatives or independents. The Con-scrutives of quolese, from the point of view of proportional repre-sentation advecates, have a grievance as notable in its way not have the Liberals of Towards. Going further, and taking the whole voic code of the members of Parliaquett in the context of 1998, which is given in the for members of Parliaquett in the context of 1998, which is given in the parliament proportion of the proportion of the proportion of the parliament proportion of the proportion of the proportion of the context of the proportion o records as 1,176,101, it is found that 265,522 lantest were market for higher disperse of the Government and 579,571 for Conservative question. Debt of the conservative of the conservative of the conservative question. As a substantial of the conservative and independents. It does contain of 183 Liberals and 88 Conservatives and independents. It does not conserve the conservative and independents. These has been substantially as the conservative and independents. These has been substantially as the conservative and independents. These has been substantially as the conservative and independents and the conservative monalization. But before it the Opposition of the Substantial conservative monalization by the Bester of the Opposition ; comitat of 133 Liberala and 88 Convertatives and independents. These figures show how small a proportion of the whole voiting production, by changing its political view, can make or up-ot a government on an appeal in a general election. They also show that under ordinary can-ditions the life of a ministry dependent on a parliamentary majority that proportional representation would elect, would be uncertain, and its poter, either for good or bal, would be small. Proportional re-resentation it beneficially be unliked. How it would work made the research of the contractive of the contractive of the contractive of question. What is of nonlinear contractive of the contractive of the con-question. What is of nonlinear covers in connection with Nr Rich. Teach of the contractive of the conard Cartwright's Toronto utterances is that, if an attempt is made to and Cartwright's Toronto uterances is that, if an attempt is made to infroduce, it when the next distribution of constituencies is made, if must be on a general plac and not part of a gerrymunderer's effort to weaken one party in a particular locality for the other party's ben-fit. The old Monal iniquity for years in connection with the representation of Toronto in the Legislature of Ontario deprived the Conserva-tives of the city of one-third of their strength. It was evidently something of the same kind that tives of the city of one-third of their attragth. It was evidently comething of the same kind that was in Sir Richard Citytinglic minds when he was speaking, because he spoke as a portizan to partizan, having regard only to their common interests in the one Province of Outsite. He had better drop the idea. A considered scheme to secure proportional representation throughout the country will be worth of thoughtful discussion,

#### Fathers of Confederation

Some of the papers are referring to Sir Charles Tupper as the las surviving Father of Confederation. There is mosther, Senator A. A. Macdonald of Prince Edward Island, now a Senator of the Dominion The error arises out of a greater error, namely, that of describing the delegates who went to England to settle the terms of the British North America Act as the Fathers of Confederation. The "Fathers,"

North America Act as the Enthrea of Confederation. The "Fathera, agas the Toronio Star, were the members of the conference which most at Quebes in October, 1865, and framed the resolutions on which Confederation was founded: They high the foundations. The delegator at London applied the finishing touches to the streets. The delegator at Sir delos Macchanda, Sr. Clander, Torper, Sr. Greege, Cortier, the Hon. William Macchangall, and others were inquience of both toutes the street of the s

# FURNACE

OUT OF THE SUSSILINE.

The Sunshine is furnished with a good, big ash-pan.
All you have to do is to grasp two strong, firmly attached, always-cool, bale handles and the large, roomy ash-pan easily comes out.

A minute or two is all it takes to perform the operation.
All the ashes are in the pan, too.

Because they are guided into it by means of abu-chutes attached immediately below the fire-pot. Sunshine is the simplest, easiest-managed, cleanest kind of a furnace. You don't have to wear overalls and a smock when attending to the Sunshine. If your load dealer does not handle the "Sunshine" write direct to us for FREE BOOKLET.

Sold by W. W. Chown Co , Limited

Spend the Balance Don't spend all you like and save the balance

-if there is any. Save what you know you should—then spend the rest.

it, as designed by the U. S. supporters of the pact, and which have made Buffalo, Rochester and other frontier cities over the border "100 er cent. for reciprocity," are clearly and convincingly stated as for

A proof of the excellent practical effect which reciprocity would have ON THE INDUSTRIES OF THIS COUNTY OF THE COU

est and most signmeant sum—S129,000000 a microscopic probability of the probability of the most probability of the most probability of the most principle of the most probability of the most principle objections made by the most principle objections made by the most principle objection made by the most principle objection of the most principle objection objection of the most principle objection objection objection of the most principle objection objecti ASSISTANCES. THE most spirited objections made by anadians to reciprocity have been founded on the argument had IF THE OBSTACLES ARE REMOVED AMERICAN ALANGEMENTAGES WILL DISCONTING THE PHACTICE OF BUILDING MILLS IN CANADA WHICH EACH OF ANADAS AND A WHICH EACH OF A CANADA WHICH EACH OF A CANADA WHICH EACH OF A CANADA WORKMEN AND SWELL CANADAS

PHOY CANADIAN WORKARDA AND CONTROL PROSPERITY.

Mr. Taft proposes that Americans shall be permitted to purchase on responsible terms, and with as few artificial barriers as may be, the things which Canada produces in professional properties of the Control Programme of the Control Professional Control P

A delightful prospect, truly, for Canadian workmen! That the be wish. Times has not overstated the underlying purpose is made as clear as procisy, noonday by the following statement made by President Taft in his.

Mr. Taft referred with gratification to the report of the Tariff Board, which some paper men have represented as fa-

complete to the reienther of the present duties, polating our that the difference between the present duties, polating our that the difference between the the two boutters. In against the difference is the cost of poly wood in the two boutters. He argued note to the difference is the cost of poly wood in the two boutters. He argued time against Canadian manufact industry mode is not protect the cost of the cost

Canadian raw material to be manufactured in the United States Canadian workingmen to be driven across the line. Canadian farmers to be deprived of the better part of their home market, and Canadian merchants to lose, a very large percentage of their trade!

merchank to 1686, a very sage percentage of their trade:

Such are the hope, intent and purpose of President Taft and his
people. They have not only prepared their trap, but have left it open
to view. It will be the fault of the Canadian people if they allow the
Laurier Government to drive them into it.

#### **EDITORIAL NOTES**

The Kingston Whig, which is one of the blind advocates of reciprocity who cannot reason on the subject, narrates the following:

W. J. Franklin, of Pittsburg Township, and a number of his male W. J. Franklin, of Fitthung Toornship, and a number of his male friends hold a fixing party every summer at Birmighnin's Lording, on the Richeux Canal. Last Wednesday was the occasion of the yearly-levisted and in addition to the dishing stuth the christiang of a new loots which was boilt in town for the Franklin thethers was to be an important overt. The christianing of the new bost was left to James and the control of the control of the control of the control later the loat was reported to water. When about to christ-en the boat Yar. Martin asked the name and was told to man it what en the boat Yar. Martin asked the name and was told to man it what each the control of the control of the control of the con-trol of the control of the control of the control of the switched. When he broke the botte of vine he named it "Reci-procity," "because," he said in explanation, "4 will not hold water." Canadissinis must either kill Continuations.

Canadianism must either kill Continentalism, rumarka the Toros to Telegram, or Continentalism will kill Canadianism.

### WIMS & COMPANY'S ANNUAL

## MID-SUMMER SALE overplag advertised cacify as repeased cacify as represented

### Will be Continued Until Saturday, July 15th

WING to the extremely warm weather of the past few days we have decided to continue our Big Midsummer Sale for one week longer. This is the time when stocks must be lowered—when all summer goods must go regardless of what we can get for them. There's thousands of dollars worth of up-to-date merchandise here that must be cleared out—a larger stock than ordinary—and in making prices for this mighty clearance sale we have not been alraid to cut all the profit off, and then some more in many cases.

Come to this sale with full confidence that you will get by ar the greatest values possible to secure anywhere, and you will not be disappointed. The assortments are ample, the goods are worthy, the prices are extraordinary. It's the one big bargain event of the season.

#### Ten Commandments of Spotless Town

New Britain: Conn., does not believe that a "city beautiful" built up abely of skyscrapers, immense public buildings, a ring of ulevands, and a bunch of marble monuments.

The residents of that New England city have got this into their

s:
"That's city beautiful must first of all be a city clean."

"That's city beautiful must first of all be a city clean."
They had a general cleaning day, giving the back yards, vacan
lots, neglected alleys, and side streets a thorough scouring. And hav
inga dministered the cure they also supplied this preventative for fu-

re reference:
Ten Commandments of Spotless Town; 1. Don't throw anything on the sidewalk or street. Find a rub

can.

2. Don't lear up paper and scatter it anywhere.

3. Don't let any piles of ashes or rubbish lay in your back yard

4. Don't mix ashes and garbage in the same can. Figs don't

like to est old coal or clinkers.

5. Don't fill the ash bin or garbage can too full.

6. Don't chalk the sidewalk, fences, buildings or pavements.
7. Don't deface park benches, school furniture or any publi

8. Don't forget that horses love banana skins. A l

Don't forget that horses love banana skins. A lian't dangerous, if it is inside a horse's stomach.
 Don't do anything that will bring disgrace to the

Don't expect your city to become clean and perfect all at once. It will become an ideal city only when everybody does something every day to help make things better.

#### The British Empire

Never in the history of the world has the magnificent extent and Never if the mistory of the world his the magnineent extent and the unparalleled resources of the British Empire been brought more forcibly home to the other nations than in connection with the present Coronation festivities.

ent coronation restricties.

"The United Kingdom of Great Britain and Ireland possesses an area of only 121,000 square milés and a population of about 00,000,000 years the flee of that nation floats to-day over nearly 11,500,000 square miles and is honored by over 400,000,000 people as follows:—

Area	
India and dependencies	900,000,000
Ceylon	000 4,000,000
Eastern Asia	00 1,000,000
Canada	00 10,000,000
West India Islands 130,00	00 1,660,000
Australia 3,160,00	00 4.100.000
N-w Zealand 105.0	000.000
South Africa	00 7,000,000
West Africa 600.00	00 33,000,000
East and Central Africa 750.00	00,000,000
-Mauritius, etc	00 400.000
Gibraltar, etc 3.7	21 5000000
In other words, this Empire occupies more th	an one fifth of the
earth's surface, and comprises over one-fifth of the	e inhabitants of the

globe.

How has it been brought about and how sustained? By conquire mainly iff the first place, but after that by according self-governin-decodon, such as was recently given the defeated Boers. India a some other dependencies have still to be governed, but in the min some other dependencies have still to be governed, but in the min some other dependencies but of self-governing nations. In a wore the bod Bomman that over a set of self-governing nations. In a wore suppose self-gibt to break men; the Britis Empire seeks to make men, and light hody but as the succeeded.

## CRIME DECREASING

TORONTO, July 10—The annual return for the year 1910 for the prisons and reformatories of Ontario, issued by Hon. W. J. Hanna, shows a decrease in the number of prisoners sent to Portsmouth by 63 compared with the previous year, while 61 more were sentenced to the Central

Prison.

The total number of persons committed to the 54 jails and lockups of the Province last year was 13.667, against 13,555 for the year 1999 or an increase of 152, all of whom cost on an average of 23c. a day. This The co

## COOL COMFORT

It's full of cool things.

If you will spend half an hour in looking you may get some tips on keeping cool this summer. Some light weight Suits, Shirts and Underclothes are degrees cooler than other light weights.

The difference is in the way they're made and of what sort of fabrics they're made.

Let us show you some cool things that are made correctly—priced correctly—and that are both stylish and handsome. We take pleasure in

Cool Suits \$5 to \$20 Cool Shirts 50c to \$1.75 Cool Underwear 25c to \$1.00 Cool Hosiery 25c to 50c. Cool Hats 25c to \$7.00

#### Unblest Ignorance

One of the articles furnished to the Grit press by their party u

One of the articles forminded to the Gris peeus by their party, and, and published in the Proceeding Servicery, reads as follows:

Amongst other agricultural products. Consultin barbyr in gris can the American free list under the Felding agreement. The history of that commodify has a particular interest for the Ontario Samuer.

For your States have you appeared in great confidence of the Construction of

fully ignorant of the subject

ue it is that Bay of Quinte barley was famed for its brewing es, and Belleville shipped more of that article than any other ort on the Bay, but it is also true that, were the duty removed, there not be any of the six-rowed barley exported. this fact are two in number, namely:

thus fact are two in number, namely: Firstly,—Sicrowed barley will no longer yield more than ten-pushels per acre, which, at the price quoted in the above article, would amount to but \$8.50 per acre, which certainly would not pay. In consequence Munchurian barley, which would not fill the requirements of the U. S. malters, is now grown in this district and is used for the significant of the significant of the significant of the significant parts of the signif feeding purposes.

feeding purposes. Secondly—Dairying and Iruit growing are much more profitable than the culture of barley ever was, as is evidenced by the improved financial position of the farmers of this and adjoining counties since the late of the control of the property of the prop The value of land has risen materially, the mortgages which nereasing during what we may call the barley period have been virtually wiped out, the value of live stock—dairy cows at least—ha more than doubled, buildings have been improved out of recognition and the majority of the farmers have comfortable—some of them lux urious—bomes and a snug balance in bank.

urious—bomes and a snug bilance in bank.

The idea of returning to the growing of barley in: the Bay of The idea of returning to the an allowary as are the other advantages which the apostles of "conomic thought" have evolved from their too-vivid imaginations. As a former well-known member of Sir John A. Macdonals's Exhibits they wan proted for, his alrowdeness used to say, "There ain't nothing to it."

#### Editorial Notes

Quite so. Wild horses do not draw.

The way in which The Globe now phrases the old Grit alogan: 'Let Laurier finish his work,' is: "Sir Wilfrid comes home to complete s great task."

The Guelph Herald is not far astray in saying: "A million dolls to be expended on the Inter

Sir Wilfrid Laurier has undertaken the herculean tack of justify his course at the Imperial Conference and in the matter of recity. It will take him many years to finish that portion of his work

After that two hundred million bushel wheat crop is har-ested wild horses would not be able to draw the West away from its allegiance to reciprocity in natural products .- Glob

The Globe still twiddles about "tariff relief" for the U. S. farm ors, but it has "economic understanding" enough not to include fur-ther with the barley question or to publish a comparative statement of the prices of agricultural products in the Buffalo and Toronto mar-

## COOL COMFORT

OUR store resembles a glant refrigerator. It's full of cool things.

If you will spend half an hour in looking you may get some tips on keeping cool this summer. Some light weight Suits, Shirts and Under-clothes are degrees cooler than other light weights: ---

The difference is in the way they're made and of what sort of fabrics they're made.

Let us show you some cool things that are made correctly-priced correctly-and that are both stylish and handsome. We take pleasure in showing!

> Cool Suits \$5 to \$20 Cool Shirts 50c to \$1.75 Cool Underwear 25c to \$1.00 Cool Hosiery 25c to 50c. Cool Hats 25c to \$7.00

### The Cost of Armament

The cost of the armaments maintained by the eight great powers of the world has lately been computed by O. de Contenness and Julie Rochs. The aggregate military and navel expenditure of these pow-ers in 1901 was \$1,025,600,000. In 1900 the aggregate had reached \$1,075,800,000. On analyzing the figurest the actual inferences on a passe basis is seen to be much larger than at first appears. In 1901 of these British's expenses were altogether absormal. The danis of the Useal printing expenses were altogether abnormal. The draw of the Boer war was then at its height and her budget was approximately two and a half times that of an ordinary year. Allowing for this it is seen into between 1001 and 1000 the annual cost of misstaining the armaments had actually increased not by \$11,000,000, as appears on the face of the statistics, but by the cusenous sum of \$405,400,000. The following figures show the amounts spent by each of these power

rmy and navy purposes in the years given:	
1901.	1909.
Germany \$190,600,000	\$306,000,000
Russia 228,000,000	299,000,000
Great Britain *595,000,060	297,000,000
United States 211,000,000	285,000,000
France 216,000,600	226,000,000
Italy 78,000,000	96,000,000
Austria 71,000,060	83,000,000
Japan 58,000,000	83,000,000

been introduced. Then there is the bill to give effect to the Tailprinting reciprocity measure. Indeed there of nor morths of ordimary work would not be too much to deal with the mass of business
and Perificiant will fine when it researched. The situation, as it is,
as about the result of the cheer incompetence of the ministers. They

# A DUIET WEDDING

The aplendid display of presents was a silent testimony to the esteem in which the bride and groom are held by their numerous friends. The hap-up couple left on the 1.50 train for the west, where the honeymonn will be spent, after which they will take up their residence in Oshawa.

### CARD OF THANKS

Mr. and Mrs. P. L. McGinnia desire to express their thanks to their many friends for the many expressions of kindness and sympathy to them dur-ing the illness and death of their daughter, Veronics.

There was a band in Heaven
That wasn't quite complete,
God took our little daughter
To fill the vacancy.

### Party Organization

After e/evy general election the political doctors of the defeated party look a position with the political doctors of the defeated party look a position with the political doctors of the defeated party look as position with the political doctors of the defeated party look as position with the political doctors of the p of Sir James Whitney was confirmed in power, not by organization, but by the force of public opinion which manifested itself irrespective but by the force of public opinion which manifested itself irrespective, or of party in giving Ontatio its Permits an increased majority. As a matter's flext, Conservatives in the rank and file have complained that the Whitney Government was not interesting itself in earrying that selection. The people, however, were so theroughly attached to Siz James and like policies that they fook care of the results without model land policies that they fook care of the results without model land profession of the Liberthian of the Control of the Contr

able to overthrow the Ross Government in 1905 and to sustai the Whitney Government in 1908, it by no means follows that organ ization is not an important factor in deciding any election. The anti-reciprocity sentiment may count for a good deal in the coming Fed eral contest, and it may be so strong in some localities as not to require the aid of political organization; but it is none the less true that "elec tions are not won by prayers" and that they are largely made by organization

This word "organization" is loosely used. Many people co of the lack of organization without being at all able to point out how things could have been better done. It is clear at the outset that ev-ery National party entering a National campaign should have some National organization. The party in control of the Government has this almost automatically. The sixteen Ministers of the Crown reside at Ottawa all the year, with large salaries, with all their clerical help jaid by the Government and with every opportunity to make a plat-form for the party and to look after its candidates in various parts of the country. The Opposition has no such alvantage. The leader of the Opposition and the Chief Whip are always in Ottawa and in close touch with one another and with Opposition members of Parliament.

They must, as things are at present, constitute themselves a National
executive committee. It might be better, indeed, if good men from every province could stay there to assist them, at least during the na-tional campaign. If they could do so, much might be accomplished in the way of agreeing upon party policies and party platforms and in allocating the speakers during a campaign to the various ridings throughout the openers urring a company to the various throughout the country. The work is being well done at prevent, so far as the Conservatives agree concerned, by Mr. Borden, Mr. Perlet, Br. Borden, Mr. Perlet, Tomos of literature are being sent and their ansistants at the Capital. "Tomos of literature are being sent out, and the party lase been happily united upon, an issue which will be a supposed to every section of the country and will are desired to the country of the coun some bickerings of racial creed which has disturbed both of the great brought Mrs. Baker to Death's political parties in the past.

Door, Father Morrisey's No. 10

solitical parties in the past.

Perhaps an ideal condition of affairs would suggest the existence
of an efficient executive committee at every provincial capital. To
come extent both parties have come to rely upon the possession of the
Provincial Government as a means of organization in each province. or an efficient executive committee at every proteins a capital. To commerciate the pharties have come to rely upon the postsession of the Provincial Government as a means of organization in such province; will be better organized-in New Brunswick, Ottario, Manitoba British (Columbia Hara discohere). Vet there are many who believe it that an efficient committee, having direction of each province, should be minimized quiting the camping as test province province, should be found.

At present organization in its usual meaning is confined to the individual riding and is entrested to the capital confined to the individual riding and is cutrosted to the confined confined to the confined confi

is naturally the man most interested in carrying the riding, and at present we have settled down pretty well to the notion that each lowhere the main described is a control of the contro

### CEILING SENSE

You would not tolerate a plaster ceiling in your for store, if you really knew how much better Preston Steel Ceilings. For plaster cracks crumbles—and these steel ceilings cannot. Planfors dust, disease germs, vermin—and Pre Steel Ceilings cannot, because they have no cread can be washed like a pane of glass.

And, then, any fire insurance company will grant you a lower rate if you put in Preston ceilings. For they go a great way towards fire-proofing an interior. Of course they are damp-proof as well. You can have Preston Ceilings put on to cover old plaster ceilings. Easily done. We tell you how. E

Pretton Sted Ceilings never need repairs and stelden need re-decorating. They will outlast the building you put them in. Thus they are the chaspate ceiling money buys, in point of gervice. Even in first cost plaster simply doesn't compare. Not does I mile plaster simply doesn't compare. Not does I mile plaster simply doesn't compare. Not does I mile plaster simply event in comparing the plaster simply event in comparing the plaster simply eventure of the plaster simply dentify compared to the plant of the p

EILING

Before you build or repair indoors, allow us to talk with you by mail about this ceiling question. You will be interested—and will surely save money. Drop a line to Metal Shingle & Siding Co, Limited, Preston, Ont. Branch Office and Factory, Montreal.

# The Two Best Jars in the Trade

### The Schram. Automatic Sealer

The Schrom Seeles bee been thoroughly introduced by us the past two seasons. While there were some who could not be induced to take up with a new thing at eny price there were hundreds and hundreds of others who were quick to see the advantages of this jar and have used it successfully. This jar is demonstrated at our counter every day. Tops, including Rubber, and all complete, cost but 10c doz, and last from two to three seasons

### The Improved Jam Jar

This Improved Jar is hardly distinguishable from the old style jar. We sold hundreds of dozens of these jars last year and never had a complaint. With this jar is used the glass too, gal-vanized ring and rubber band, but the feature of the jar is the placing of the rub-ber band, which gives a more air-tight joint than is to be had in the old style

jar.
We also have the old style far if you like them beat.

### Rumors of an Election

At is, process that the Laurier Government, with Jauseite Parlia-ment, and rush on the General Elections, DEFORE passing a Rein-tribution Dall, or stricinging to other Parliamentary business.

If Add Trainer's aboud prove correct, it will show that the Govern-ment is ready to perpetrate a great wrong and seek to win a snap ver-

dict from the only PARTLY REPRESENTED people, by sharp prac-

tice.

Huesler that the people should be duly represented in Parliament there should be passed a new Registribution Bill, based upon the New Counau Tigares, before a General Election should be held.

In no other way can the present people of the Dominion have their proper representation in Parliament, according to the previsions of after the proper representation in Parliament, according to the previsions of after the proper representation in Parliament, according to

This New Census Figures are now all returned to Ottawa, or should have been before this date; and the mere "numbering of the people" of sach Province should require but little office work and lake but little tin

but little time.

Indeed the figures should be ready for the reassentiling of Parlisment, on the 18th instant, and the introduction and passage of a reasonshould represent product and the little time.

Mr. R. J., Borden, and his party have recognized and preclaimed
throughout that the representation of the people in Parlimment should
be readjusted and brought up to dute by a new Hedistribution Act before, a Genical Parlier method the John. est should Merode, on Act before a General Election should be held.

Throughout his speaking tour in the Northwest the Conservative Leader constantly proclaimed that view in the interest of fair play, and popular government; and the people of Canada, from ocean to ocean, cannot but agree with the Conservative leader, on this important

nent insists on holding a General Electi on a TEN-YEAR-OLD PLAN of Parliamentary representation, this Government will be entirely to blame for thus ignoring the rights of the present people of Canada; for, of course, the Government has the matter entirely in its own hands, there is no public reason why a new Redistribution Bill should not be passed before a General Election, and moreover, the 'ealer of the Opposition has publicly declared in favor of that just and proper course.

If the Laurier Government rushes to the country before Relistri tution, it will certainly NOT be out of any regard for the People or their Parliamentary rights.

It will be entirely out of regard for some fancied interest or ad-vantage of the Government itself, or of its co-conspirators at Wash-

# The Deadly Levelling Influence

It would appear that the hostility of Michigan farmers to rec would appear that the heatiful of Michigan Jarmers to reci-procity does not arise from heatiful or man and armer, but from dread of unfulfilment of promises by advocates of 'reciprocity. They apjechend that through the making of the markets of Canada and the U. S. common, a levelling of prices will ensue which will be to the

the U. S. common, a strong w. pieze.

Advantage of neither farmer.

There is a wolf of Elkton, Mich., a rural newspaper, which undercounty Raving of Elkton, Mich., a rural newspaper, which undertakes a discussion of the reciprocity question from the Elkton standpoint, and incidentally exposes the falles of some arguments made to do duty in Canada. It says:

to do daty in Canada. It says:

"Speaking of Canadian reciprocity the farmer realers of this paper do not want it. We have made it a point to personally enquire, and in a list of II2 asked, but one farmer favored it. Joseph Chotti, not englishtened and prosperous farmer of Chandler Township, said to these beneigh Late work: "No reciprocity for mo. I was unfortunated to the contraction of th but there was so much of a reduction in what we farm to sell that it proved a hardship to the extent that we mored away in great numbers; I moved to this country to get away from reciprocity. great numbers; I movate c'it the ten Bikton. At eve weeks ago I oliv Why, here is, an Bikton. At eve weeks ago I oliv wheat in Bikton at \$1.80, to-day it is \$800., yet the price of flour is ex-scally the spane. Does the poor man who, huys a jack of flour-during and the sandy the spane. Does the poor man who, huys a jack of flour-during any benefit. No, it can be sufficient to the same and the same of the same will age of the same of the same

Automatic Sealer

The Schram Scaler has been thoroughly introduced by us the past two seasons. While there were some who could not be induced to take up with a new thing at my price there were hundreds and hundreds of others who and hundreds of others who were quick to see the advantages of this jar and have used it successfully. This jar is demonstrated at our counter every day. Tops, Including Rubber, and all complete, cost but 100 doz, and last from

### The Improved Jam Jar

This Improved Jar is hardly distinguishable from the old style jar. We sold hundreds of dozens of these jars last year and never had a complaint. With this jar is used the glass top, galvanized ring and rubber band, but the feature of the jar is the placing of the rub-ber band, which gives a more air-tight joint than is to be had, in the old style

jar.
We also have the old style jar if you like them best.

Pastor Russell Sees Divine Inspiration in the Movement Noted Speaker Addresses Large Audiences

THE WORD Santy Claus in the Good Old Summer Time

YOU Eastern Ontario and Montreal boys and girls expect 'Santa around when the snow flies. This year the biggest Cereal Firm in the British Empire has induced Jack Frost's old chum to appear now. A hot job this for "Santa" but a pleasant one, because—he's giving away dandy little Shetland Pony "Turnouts" and Diamond Rings to boys and girls who love ponies. Would you like to get one? Go to your grocer and buy two packages-enc

### Fruit Jars

Jelly Tumblers Rub-ber Rings, etc. All the necessary requi-sites for the successful canning of fruit to be found at this store : : : : : : : : :

#### The Two Best Jars in the Trade

The Schram - Automatic Sealer

The Schram Sealer has en thoroughly introduced

by us the past-two sensons. While there were some who could not be induced to take up with a new thing at cny price there were hundreds and hundreds of others who were quick to see the advantages of this jar and have used it successfully. This jar is demonstrated at our counter every day. Tops, including Rubber, and all complete, cost but 100 doz, and last from

two to three sere

The Improved Jam Jar

This Improved Jar is hardly distinguishable from the old style jar. We sold hundreds of dozens of these jars last year and never had a complaint. With this jar is used the glass top, gal-vanized ring and rubber band, but the feature of the jar is the placing of the rubber band, which gives a more air-tight joint than is to be had in the old style

jar.
We also have the old style jar if you like them best.

#### The Situation In Quebec

The Statustics in Queber is complicated. Postmaster General misure has been stumping that Province and directing his attacks are stumping that Province and directing his attacks are stumping that Province and directing his attacks are stumping to the province of the pro assa, are giving the Government no little uneasiness. ass, are giving the Government no little uneasiness. That they may carry as many as fifteen seat is shuffled by friend of the Government who console themselves by anying that the old line Conservatives will not earry more than half a dozen seats in the Province, of Queble. There is no great magic in names and men like Mr, F, D, Monk and MR. Bloddin in the next Money will easies in turning the Learner Government out of power whether they call themselves Conservatives or Mationalists.

erument out of power whether they call themselves Conservatives or Nationalists:

Of course the existence of a strong third party in Queboc cannot be ignored. Every new party draws from both the old parties. In some districts it may be found advisable for the Conservatives to stand by and give the Nationalist candidate a clear field. Judging from the present Queboc delegation in the House, it may certainly be said that the Nationalists are preferrable to the Laurier Eiberits.

"Should the Nationalists muster the strength they expect to muster, they will not only take away many seast from the Government, but they will demoralize the large band of camp followers which slivays hange on and yet behind the winning party. If the word once yets out that Laurier is going to be whipped, the Liberal party will lose a great namy voters who now altere to it, sepecially in Queboc, through timidity. Many such vaters are graind to antagonize fix Will-fidd Laurier, tessues he has become the uncrowned thing of the sounlos a great many voters who now alters to it, specially in Question and the main through timidity. Many such viers are afraid to antesporize fir. Will. Introduction the policy of the control of the con could not hope to carry. On the other hand, they may gain a member-here or there where otherwise the Conservative would have been elected. Summing the whole thing up, however, it is asfe to say that the Conservatives, and Nationalists combined will have more seats than the Conservatives would have if the Nationalists did not crist. It is coctain that the Liberals would be only too glad to climinate Bourness and his party from the contest.

#### Fly the Right Flag

Canadians are cafeless in flying flags.

The Union Jack alone is the one flag that British subjects should

fly on shore There are three British ensigns—the red, the white and the blu

-that are used on the water.

The Union Jack—the combination of the banners and cr St. Georgeast. Andrew and St. Patrick—is "the flag on which the sun never sets." It is raised at sunrise each morning on every official and military flagstaff throughout, the British Empire and is lowered daily military flagstaff throughout, the British Empire and is lowered duly, listed it not be report just inseed as numel. It is from by prepresentatives of the Empire all the world form by prepresentation carried with a weath of contrast of the Deministration carried with a weath of maple leaves is displayed in the centre. When flown by the flower by the British of Angast 10.4 Justice and England in the Reinstein Contrast of the Deministration of the British of Angast 10.4 Justice and England in the Reinstein Contrast of the Reinstein Co nor displays a Union Jack with the cont-of-arms of his Province in the centre. Besides being the one proper fig. 16 fty on land it is flown at the matchesel of every ship; including man-of-ara. It should not signal for a pilot and in this case is home as the Pilot. Jack. Larly, it figures as the pall of every sailor or solities of the Empire who are ceiven award or military benown 4 his formers. The three British en-signa are used on the water and do not properly belong on land at all. The regulations for the use of these configurable reviews for the con-

The white ensign is the red cross of St. George, with a white field having the Union Jack in the upper left hand corner. It is essential the flag of the British navy. It should never be used except by

ship of the Imperial navy.

The blue ensign is a blue field, with the Union Jack in the upper left hand corner. It is the flag of the Royal Naval Reserve. It is rete name corner. It is the hig of the Royal Naval Reserve. It is flower also by those vessels of British mercentile marines whose offi-cers and crews belong to the Royal Naval Reserve. It is used in the British Dominion on Government vessels with the 'coat-of-strms of the Dominion displayed in the fly. Members of Royal Yacht Clubs are

also privileged to fly it at the stern of their yachts.

The red ensign since 1707 has been the distinguishing flag
British merchant marine. It is a red field with the Union J
the upper left hand corner. It is this flag with the coat-of-arms
fly that is commonly, but mistakenly, called the Canadian flag.

#### The Two Best Jars in the Trade

The Schram Automatic Sealer

The Schram Sealer has een thoroughly introduced by us the past two seasons While there were some who could not be induced to take up with a new thing at any price there were hundreds and hundreds of others who were quick to see the advantages of this jar and have used it successfully. This jar is demonstrated at our counter every day. Tops, "Inolucing Rubber, nost but 100 doz, and last from the thing to the seesons." were quick to see the adThe Improved Jam Jar

This Improved Jar is hardly distinguishable from the old style jar. We sold hundreds of dozens of these jars last year and never had a complaint. 'With' this jar is used the glass top, galvanized ring and rubber band, but the feature of the jar is the placing of the rubber band, which gives a more air-tight joint than is to be had in the old style

jar. We also have the old style jar if you like them bost.

### The Two Best Jars in the Trade

The Schram Automatic Sealer

The Schram Sealer has by us the past two seasons. While there were some who could not be induced to take up with a new thing at eny price there were hundreds and hundreds of others who were quick to see the ad-

vantages of this jar and have used it successfully. This jar is demonstrated at our counter every day. Tops, including Rubber, and all complete, cost but 100 doz, and last from two to three seasons

The Improved Jam Jar

This Improved Jar is hardly distinguishable from the old style jar. We sold hundreds of dozens of these jars last year and never had a complaint. With this jar is used the glass top, galvanized ring and rubber band, but the leature of the jar is the placing of the ruber band, which gives a more air-tight joint than is to be had in the old style jar.

jar. We also have the old style jar II you like them best.

### COOL COMFORT

OUR store resembles a giant refrigerator. It's full of cool things.

If you will spend half an hour in looking you may get some tips on keeping cool this summer. Some light weight Suits, Shirts and Under-clothes are degrees cooler than other light weights.

The difference is in the way they're made and of what sort of fabrics they're made.

Let us show you some cool things that are made correctly—priced correctly—and that are both stylish and handsome. We take pleasure in showing!

Cool Suits \$5 to \$20 Cool Shirts 50c to \$1.75 Cool Underwear 25c to \$1.00 Cool Hosiery 25c to 50c. Cool Hats 25c to \$7.00

When Baby Comes

The Cooling off is Pleasant But the Kidney Trouble isn't

Of course, you are going to keep as cool, as you can these hot Summer days. At work or play, one is bound to get over heated and it is so natural to cool off in a shady spot or pleasant breeze. But look out for Kidney Colds.

A slight chill, a pain across the back or between the shoulders or in the abdomen, is a warning that you have taken cold in the Kidneys or Bladder. A box of GIN PILLS will put you right. They go at once to the spot and soothe the inflamed Kidneys and

Bladder and relieve the pain. Gin Pills contain the healing medici properties of Gin as well as other valuable curative agents. It is the combination of all these ingredients that gives Gin Pills their wonderful healing virtues. Don't take wonderful healing virtues. Dou't tak substitutes. Remember—every box of Gin Pills is absolutely guaranteed to cure all Kidney and Bladder Troubles, or. money will be refunded. Be on your guard against Summer Chilles. Keep Gin Pills handy, 50c a. box—6 for \$2,0—at all deplare, or direct by mail on receipt of price.

cent of tongs or curiping. Again and again has society, especially Paristan society, tried to lure her into its cen ire, but the more it seeks her the farther she flees from it, and now society is getting tired of pursuing, and leaves her alone.

### MATRIMONIAL COMMISSION

An Agent Who is Suing for a Claim of \$28,000

An interesting action regarding the commission to be paid to a matri-monial agent who cisims that he was instrumed in bringing about a marriage cut in bringing about a manufacturer and a low of a lace manufacturer and a low of a fortune of \$1,200,000, has just come before the courts.

By CHARLES A. MACFARLANE

### DARING ESCAPE Grand Trunk Railway FROM NORTH BAY JAIL Farm Laborers' NORTH BAY, July 26 -A darin; Excursions

NORTH IIAA, outy 20—a carriag cocaspo was made from North Bay Jaii in broad daylight by a high-gradie from Cobalt, who had only elveren days more of his sentence to serve. At 2 o'clock he found himself alone in the courtyard, with an axe in his hard with which he had been cutting wood and only a high leaved from between and only a high board fence between him and liberty. The fence was eight, cen feet high, but the prisoner, with the aid of the small axe, scaled the wall and disappeared: His name is the sid of the small also, scaled the will and disappeared: His name is In Sequist, a Pole, rounded up in Garry for stelling silver ore at Ca-balt, the others getting from one to loar years while he was let down with thirty days. Shortly after Sequist's escape his wife arrived in tawn, and is being sha-teased by the Provincial police. As Sweet by the Provincial police, the the district of the provincial police of the the daring jail breaker.
